

HAMZA ALI AURANGZAIB

ELECTRICAL TECHNICIAN

 **Address:** Androon Mori Gate, Bismillah Street, House No. B-949, Lahore, Pakistan
 **Phone:** +92 328 4634023, +92 321 7764767  **Email:** zumer1808@gmail.com

PROFESSIONAL SUMMARY

Dedicated and technically skilled **Electrical Technician** with a 2-year Professional Diploma and over **5 years of hands-on experience** across Pakistan and the UAE. Proven expertise in industrial electrical installations, preventive maintenance, fault diagnosis, and troubleshooting within large-scale manufacturing plants, food industries, and high-security government facilities. Adept at ensuring operational safety, minimizing downtime, and executing technical projects according to international standards.

EDUCATION & TECHNICAL QUALIFICATION

2-Year Diploma in Electrical Technology
Government Technical Training Institute (GTTI), Mughalpura, Lahore, Pakistan

Matriculation
Government Muslim Model High School, Lahore, Pakistan

CORE COMPETENCIES

- **Industrial Automation & Control:** Maintenance of control panels, switchgears, relays, and timers.
- **Preventive & Corrective Maintenance:** Troubleshooting motors, heavy machinery, and assembly lines.
- **Wiring & Installations:** Expert in conduit laying, industrial wiring, and power distribution systems.
- **Blueprint Reading:** Ability to read and interpret electrical circuit diagrams and schematics.
- **Safety Compliance:** Strong commitment to Occupational Health & Safety (HSE) regulations.

WORK EXPERIENCE

- UAE EXPERIENCE (3 Years) — Electrical Technician (Project-Based)**
Successfully executed electrical maintenance and installation works on key industrial and infrastructure projects:
- 1. Al Ghurair Foods (Starch Plant) – KEZAD, Abu Dhabi**
 - Handled electrical wiring, testing, and commissioning of food processing and milling machinery.
 - Maintained high-speed automated packaging systems, sensors, and conveyor belts.
 - 2. Al Ain Water Factory & Gloves Factory – UAE**
 - Diagnosed and resolved electrical faults on production and bottling lines to maximize uptime.
 - Conducted routine calibrations of automated sensors and control circuits.
 - 3. CID Headquarters – Abu Dhabi**
 - Carried out specialized electrical installation and general maintenance work in a high-security facility.
 - Ensured zero safety violations and strict adherence to Abu Dhabi commercial power standards.

PAKISTAN EXPERIENCE (2 Years) — Electrical Technician

Government Factory – Lahore, Pakistan

- Maintained, inspected, and repaired heavy machinery and power backup systems within the facility.
- Managed daily preventive maintenance logs for distribution boards and plant lighting systems.
- Assisted the engineering team in handling emergency breakdowns swiftly to prevent production delays.
