PROFESSIONAL SUMMARY

Full-Stack Developer experienced in building web applications and RESTful APIs with **Java (Spring Boot)**, **React**, and **Next.js**, backed by **MySQL** design and optimization. Unique dual background in software engineering and accounting, with a strong understanding of ERP/SAP environments. Well-suited to fintech, ERP, and business-system products. Comfortable in Agile teams (**Jira**, **GitHub**) and focused on clean, maintainable code that serves real business operations.

CORE COMPETENCIES

- **Backend:** Java, Spring Boot, RESTful APIs, System Architecture, Troubleshooting.
- **Frontend:** React, Next.js, JavaScript, Tailwind CSS, Responsive Design, Data Visualization.
- **Databases & Tools:** MySQL, SQL Optimization, Git/GitHub, Jira, SAP/ERP, Advanced Excel.
- **AI-Assisted Development:** Claude, ChatGPT (code review, debugging, documentation).
- **Methodologies:** Agile/Scrum, OOP, Data Structures, API Integration.
- **Languages:** Arabic (Native), English.

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Internship) | BackendBird

Oct 2025 – Mar 2026

- Developed backend services and **RESTful APIs** using **Java** and **Spring Boot**.
- Built responsive interfaces using **Next.js** and **React**, cutting load times by ~15%.
- Tracked tasks and updated development using **Jira** within **Agile** team environments.
- Managed version control via **GitHub**, executing efficient code collaboration and branching.
- Optimized **MySQL** databases and queries, decreasing response times by 15-20%.

Administrative Support | Zarqa Municipality

Sep 2016 – Present

- Managed **SAP & ERP** workflows, handling financial records with a 98% accuracy rate.
- Streamlined data and reporting using **Advanced Excel**, increasing team productivity by 12%.
- Optimized digital archiving and ledger tracking, reducing document retrieval delays by 10%.
- Supported internal audit procedures by maintaining structured, confidential data controls.

PROJECTS

Pharmacy Management System | Financial & Inventory Platform

- Built an automated billing, invoicing, and stock tracking system ensuring ledger integrity and financial recordkeeping, combining development skills with accounting knowledge.
- **Stack:** Java (Spring Boot), Next.js, JavaScript, MySQL.

EDUCATION

Diploma in Software Engineering — Luminus Technical University College, Jordan

2025

B.Sc. in Accounting — Al-Zarqa Private University, Jordan

2020
